ROBERTO LOPEZ
Full-Stack Developer and UX/UI Designer

ABOUT ME

I am Rober, a **Full-Stack Developer and UX/UI Designer** with a deep passion for computing and technology since my childhood. I trained at a **Full-Stack Developer Bootcamp** in Bilbao where I acquired skills in **HTML, CSS, React, JavaScript, MongoDB, Nodejs**, etc. I also deepened my knowledge on Udemy with advanced courses in **CSS, SASS, LESS**, Flexbox, Grid, a complete Angular course, and UX/UI Design. I also have complete training in a **UX/UI Design Bootcamp**, including user research, prototype design, and usability testing. I am motivated to continue learning and contributing value in the technological field.

EXPERIENCE

Jan 2023 - Jun 2023
Hodeia.digital | Bilbao, Spain
Full-Stack Developer
I was responsible for the development and expansion of innovative modules for BuildApp, attending to and adapting improvements proposed directly by our users. I acted proactively in resolving incidents while perfecting my skills in key languages and tools such as **PHP, Angular, CSS, and Bootstrap.**

Sep 2019 - Sep 2022
Coviran SCA | Bilbao, Spain
Administrator
I directed the integral management of orders in the supermarket from their creation to delivery, ensuring their precision and efficiency at each stage. In addition, I supervised the reception and review of incoming loads and was responsible for keeping product prices updated, ensuring competitiveness and accuracy in our inventory.

EDUCATION

May 2023 - Sep 2023
The Bridge - Digital Talent Acelerator | Bilbao, Spain
UX/UI Design Bootcamp
Developed a deep understanding of best UX/UI design practices, including **user research, persona creation, user journey mapping, wireframe and prototype design, usability testing**, etc., and the use of tools such as **Figma**.

Sep 2022 - Dec 2022
BBK Bootcamp by Code4jobs | Bilbao, Spain
Full-Stack Developer Bootcamp
Intensively trained in a Full-Stack Development Bootcamp where I acquired skills in key languages such as **HTML, CSS, React, and JavaScript**. I deepened my knowledge in **MongoDB** management and backend development with Nestjs and Nodejs. This training provided me with a comprehensive view of software development, covering both front-end and back-end.

Sep 2018 - Sep 2019
Somorrostro Training Center | Muskiz, Spain
Intermediate Degree in Microcomputer Systems
Graduated with an Intermediate Degree in Microcomputer Systems and Networks, with training in the management, maintenance, and implementation of computer systems and network structures.
